Section 1: Display Logic

1. Select the **check box** to the left of the question number.

2. Select **Display Logic** under **Question behavior** located on the left side of the screen.

3. Select the **first dropdown menu (1)** to the left of the new window, and select the criteria you want to use **(2)**.

Section 1: Display Logic

4. As you make your selection, various other dropdown menu's will appear. Select the needed criteria to achieve the needed effect.

Display Logic (Sorry you were not pleased, do you have suggestions on how we can improve?)
Display this Question only if the following condition is met: Question ~ Q6 How pleased arh those services? ~ Extremely displeased ~ Is Selected ~

5. Click the **green plus sign** to the right of the window to add additional lines of logic.

Close Save

6. Any additional lines will have a dropdown menu appear to select between an "**And**" or "**Or**". If **And** is selected all the logic will need to be completed to display the question. If **Or** is selected it can be any of the lines created.

University of Kentucky College of Agriculture, Food and Environment Cooperative Extension Service

Section 1: Display Logic

7. Click the **Save button** when the logic is created.

8. The logic you created will appear above the question.

9. Click the three dots to the right of the logic (1) to eitheredit or remove (2) the addition.

10. Ensure that there is a Page Break **before** the logic added. Place your mouse in the space between the question boxes, and select the **Add a Page Break** button that appears.

Section 2: Skip Logic

1. Select the **check box** to the left of the question number.

Select Skip Logic under
 Question behavior located on
 the left side of the screen.

3. Select the **first dropdown menu (1)** in the new window to chose **where (2)** to skip the respondent. You can skip them to a future question, the end of the current block, or the end of survey.

Section 2: Skip Logic

4. In the **second dropdown menu**, select the answer from the question that will trigger the skip.

5. In the **third dropdown menu** select the action the respondent will need to perform to trigger the skip.

6. Select **Confirm** on the far right of the Skip Logic window to set the changes to the question.

Section 2: Skip Logic

7. Click the **three dots (1)** to the right of the logic to either **edit (2)** or **remove (3)** the logic.

8. Ensure that there is a Page Break **after** the logic added. Place your mouse in the space between to question boxes, and select the **Add a Page Break** button that appears.

Section 3: Carry Forward

1. Select the **check box** to the left of the question number.

Section 3: Carry Forward

2. Select **Carry forward choices** under **Question behavior** located on the left side of the screen.

3. In the **first dropdown menu** select the question where you are pulling the **answer(s)** from to populate the new question

4. Click the **second dropdown menu** to pull the info from the question selected in the first dropdown. These options will change based on the type of question that was selected.

5. Click **Confirm** in the lower right of the field to confirm the changes to the question.

University of Kentucky College of Agriculture, Food and Environment Cooperative Extension Service

Section 3: Carry Forward

6. You can review the logic in the box above the question.

7. Click the **three dots** to the right of the Carry Forward field to either **edit** or **remove** the logic.

8. Ensure that there is a Page Break **before** the logic added. Place your mouse in the space between to question boxes, and select the **Add a Page Break** button that appears.

Section 4a: Survey Flow - Getting Started

1. **Before** editing the Survey Flow, we recommend naming the various blocks of questions. This will help you when identifying the correct areas to be edited. Name the blocks by **clicking** on the **generic block name** in the upper left corner, and typing in the needed text.
