3. Click Sign In.

#### Section 1B: Accessing Zoom - The App

4. Click **Sign in with SSO** on the right side of the window.

5. Type uky in theCompany Domain field.Then click Continue.

6. You may be prompted to enter your **LinkBlue credentials**. Then select **Sign In**. A **new window** will open and select **Open Zoom**.

#### Section 2A: Settings - Video

1. Click on the **Gear Icon** in the **upper right** of the **App**.

 Click on the Video
 button on the left side of the new window.

3. Click the drop down menu next to Camera to switch to an external camera.

#### Section 2A: Settings - Video

4. Under **My Video**, make sure **Enable mirror effect** and **Touch up my appearance** are **checked**.

| Enable HD              |
|------------------------|
| Enable mirror effect   |
| Touch up my appearance |
|                        |

5. Under **Meetings** you can determine how you want **your's and the participant's video** to be displayed during the meeting.

#### Section 2B: Settings - Audio

1. Click on the **Gear Icon** in the **upper right** of the **App**.

#### Section 2B: Settings - Audio

2. Click the **Audio button** on the **left side** of the **new window.** 

3. Next to Speaker, you can test the speakers
(1) to make sure they work, change to external speakers (2), and change the volume (3).

4. Next to Microphone, you can test the mic
(1), change to another mic (2), change the mic's volume (3), or set
Zoom to automatically adjust the volume (4).

#### Section 2B: Settings - Audio

5. Click options to automatically have your mic on when joining a meeting (1), muting your mic when entering a meeting (2), and being able to hit the Space bar to unmute your microphone temporarily (3).

#### **Section 2C: Settings - Recording**

1. Click on the **Gear Icon** in the **upper right** of the **App**.

2. Click on the **Recording button** on the **left side** of the **new window.** 

#### **Section 2C: Settings - Recording**

3. Under Local Recording, click the Change button to choose where you want to place the recorded meetings after they download.

You can also adjust various other aspects of your recorded meetings.

#### Section 2D: Settings - Chat

1. Click on the **Gear Icon** in the **upper right** of the **App**.

#### Section 2D: Settings - Chat

2. Click on the **Chat button** on the **left side** of the **new window.** 

3. Under **Unread Messages**, you can **choose where** unread messages **appear** in the **chat area**.

| Unr        | read Messages  |
|------------|--|
| $\bigcirc$ | Keep all unread messages on top                          |
| $\bigcirc$ | Show unread message badge ( 📵 ) for channels             |
| $\bigcirc$ | Move messages with new replies to the bottom of the chat |
| Wh         | en viewing unread messages in a channel:                 |
| 0          | Start at the first unread                                |
| 0          | Start at the latest                                      |

4. Under **Push Notifications**, click on how to be **alerted** to **messages** in the **chat area**.

| Pus        | h Notifications                    |
|------------|------------------------------------|
| 0          | All messages                       |
| $\bigcirc$ | Only private messages and mentions |
| $\bigcirc$ | Nothing                            |
| Witł       | h exception for Channels           |

#### Section 2E: Settings - Virtual Backgrounds

1. Click on the **Gear Icon** in the **upper right** of the **App**.

Click on the Virtual
 Background button on the
 left side of the new window.

3. Click on the **background** that you want to **use (1)**, or the **plus sign** to add **your own image or video (2)**.

#### Section 3A: New Meeting - Getting Started

1. Open the **App**, make sure **Home** is selected at the **bottom** of the **window**, and click **New Meeting**.

In the new window Computer
 Audio (1) will automatically be
 selected. Here you can test your
 microphone and speakers (2).
 Click Join with Computer Audio
 (3) to enter the meeting.

3. Click **Phone Call** to get the **dial in information** and **Meeting ID**. Click **Done** to **enter** the meeting.

| Choose ONE of the audio conferen | ce options                         |                | × |

| 2 (                              | Done                               |                |   |

Zoom

#### **Section 3B: New Meeting - Inviting**

1. Click **Invite** in the **toolbar** at the **bottom** of the **screen**. You may have to **place your mouse** at the **bottom** of the **screen** to **activate** the **toolbar**.

Click Email in the new window. Then click Default Email to open a message window on your computer with the meeting information.

3. In the **lower left** of that **window** you can also **copy** the **web link** to the meeting or **copy** the **entire invitation**. The **information** can then be **pasted** into an **email message**.

| Copy URL Copy Invitation |
|--------------------------|

Zoom

#### **Section 3C: New Meeting - Controls**

1. In the **upper right** you can switch your meeting to a gallery view (1), where you can see all the participants on the screen. You can also switch to full screen (2).

2. Click the Microphone in the lower left to mute your microphone.

3. Click the arrow next to the microphone to change your mic or speakers. You can also test your equipment.

#### **Section 3C: New Meeting - Controls**

1. Click the **Camera** in the **lower left** to turn **off** your **camera**.You may need to **move** your **mouse** to the **bottom** of the **screen** to **activate** the **toolbar**.

2. Click the **arrow next** to the **camera** to **change** your **camera** or to **add** a **virtual background**.

#### **Section 4A: Managing Participants - Muting**

1. Click the Manage Participants at the bottom of the screen. You may need to move your mouse to the bottom of the screen to activate the toolbar.

#### **Section 4A: Managing Participants - Muting**

2. A new window will appear to the right side of the screen. In the middle you will see the options to Mute All or Unmute All.

| Mute All | Unmute All | More 🗸 |
|----------|------------|--------|
|          |            |        |
|          |            |        |

3. Click **More** to **turn off everyone's mic** when they enter. You can also **allow** them to **unmute themselves**.

4. Place your **mouse** over a **participant** to **mute** or **unmute** them **individually**.

#### **Section 4B: Managing Participants - Cameras**

 Click on the camera to the right of the user's name to turn off their camera.

### Section 4C: Managing Participants -Assigning a Cohost

 Place your mouse over the participant's name.
 Click the More button.

 Click Make Host to remove your status (1), or click Make Co-Host (2) to give the participant the same control as you.

#### **Section 5: Chatting**

1. Click the **Chat button** at the **bottom** of the **screen**. You may need to **move** your **mouse** to the **bottom** of the **screen** to **activate** the **toolbar**.

T A Chat Brea

| To: Everyone •<br>Type message |   |   |
|--------------------------------|---|---|
| ere                            | Save Chat<br>Participant Can Chat With:<br>No One<br>Host Only<br>Everyone Publicly<br>Veryone Publicly and Privately | 4 |

Click on the arrow next to
 Everyone to select a participant
 to start a private chat.

#### **Section 5: Chatting**

4. Enter your **messages** in the chat area in the **bottom right**. Hit the **Enter key** to send the message to the **Chat area**.

5. A **participant** can **raise their hand** if they have a question. You will see the **hand** to the right of **their name**.

6. User's can provide **nonverbal feedback** by clicking on the **various icons** seen in the **middle** of the **chat area**.

#### **Section 5: Chatting**

7. Click **Clear All** to **clear** the **nonverbal feedback**, and you can utilize the tools again.

#### **Section 6: Recording**

1. Click the **Record button** at the **bottom** of the **screen**. You may need to **move** your **mouse** to the **bottom** of the **screen** to **activate** the **toolbar**.

2. You can **pause** the **recording** or **stop** the **recording** by clicking on the **buttons** in the **toolbar** at the **bottom** of the **screen**.

#### **Section 6: Recording**

3. After stopping the recording, click End Meeting in the lower right to begin downloading the meeting.

4. Click **End Meeting for All** to begin the **conversion** process.

5. You will see the Convert
Recording window appear.
When that window
disappears, your recording
will be available at the
location that was selected
(Section 2C: Page 6).

## Zoom

#### **Section 7: Share Screen**

1. Click Share Screen in the toolbar at the bottom of the screen. You may need to place your mouse at the bottom of the screen to display the toolbar.

2. Click the drop down menu next to the Share Screen button to manage additional share options.

3. Click on Screen to share your computer. You can also only share a specific window or application (PowerPoint, Excel, etc.) to hide other activity on your computer.

#### **Section 7: Share Screen**

4. Click **Whiteboard** to **create** an **interactive board** for participants to **draw** or **type responses**.

5. Click **Iphone/Ipad** to **share** your **device** that is **plugged** into **your computer**.

6. Click Share computer sound in the lower left corner to allow users to hear videos or other sounds you want to share on your computer.

#### **Section 7: Sharing Screen**

7. Click Share in the bottom right corner to begin displaying your screen.

8. Click on Remote Control in the toolbar at the top of the screen, and select a user.
This will give them control of your computer screen.

9. Click **Stop Share** at the **top of the screen** to **turn off** sharing, and to **go back** to the **main meeting** area.

1. Open the **Zoom App**, click the **Schedule** button.

2. At the top of the new window give your meeting a title (1), select a date
(2), a time (3), how long the meeting will last (4), and the time zone (5).

| Торіс                         |  |
